

INTERLINK D.1 Library list of relevant literature

Document name INTERLINK D.1 - Literature Library List.docx
Version 4.2
Date 2-11-2018
Main author Thomas Houlihan (Roughan & O'Donovan)
Contributors Robert Corbally, Aonghus O'Keeffe (Roughan & O'Donovan), Hans Hoeber, Daan Alsem (RHDHV), INTERLINK partners

Approval for main versions

	Version	Name	Role	Date
Proposed	1.0	Aonghus O'Keeffe	WPA Leader	21/11/2016
Reviewed	2.0	Daan Alsem	WPB Leader	28/11/2016
Authorised	3.0	Bart Luiten	Proj. Coord.	30/11/2016
Accepted	4.0	Benno Koehorst	Proj. Manager	24/03/2017
Proposed	4.1	Aonghus O'Keeffe	WPD3 Leader	30/10/2018
Authorised	4.2	Bart Luiten	Proj. Coord.	30/10/2018

All INTERLINK consortium members are committed to publish accurate and up to date information and take the greatest care to do so. However, the INTERLINK consortium members cannot accept liability for any inaccuracies or omissions nor do they accept liability for any direct, indirect, special, consequential or other losses or damages of any kind arising out of the use of this information.

Acknowledgement

This document is a deliverable of the INTERLINK project, which has received funding from the CEDR Transnational Research Programme.

1 Project information

Project title	Information management for European Roads using LINKed data		
Acronym - Logo	Interlink		
CEDR Topics addressed	<p><u>CEDR Call 2015: Asset Information using BIM:</u></p> <p>A. Exploration of procuring asset information</p> <p>B. Exploration of BIM data structures</p> <p>C. Design for common principles for object-type library</p> <p>D. Design and test a basic object-type library and open BIM standards</p>		
Project Coordinator	Bart Luiten TNO	Email	bart.luiten@tno.nl
Address	P.O. Box 49 NL-2600 AA Delft The Netherlands	Tel.	+31 88 8663122
Partners	TNO	Country	NL
	Roughan & O'Donovan Consulting Engineers (ROD)		IRL
	Royal Haskoning DHV (RHDHV)		NL
	AEC3		DE
	Vianova Systems (VNS)		NO
	interactive instruments (ii)		DE
	Semtech		NL
	planen-bauen 4.0 (pb4.0)		DE
Start date	01/09/2016	Duration (in months)	24
End date	31/08/2018		
Project Website	http://www.RoadOTL.eu/		

2 Document Scope

As part of WPA and WPB, Deliverable D.1 was provided as a dynamic web-based library of relevant pre-existing literature reviews and recently developed literature. This document was revised at the end of the INTERLINK project to include reference literature from other work packages, including WPC, WPD1 and WPD3.

3 Abbreviations

Abbreviation	Explanation [optional context]
AI	Asset Information
AM	Asset Management
BIM	Building Information Management/Modelling
CEDR	Conference of European Directors of Road
D.x	Deliverable x [INTERLINK]
EU	Europe, European
IM	Information Management
INTERLINK	INformation management for European Roads using LINKed data
LD	Linked Data concept [W3C]
M.x	Month x [INTERLINK]
NRA	National Road Authority
OTL	Object Type Library
WP	Work Package [INTERLINK]
WPL	Work Package Leader [INTERLINK]
Y1, Y2	Year 1, Year2 [INTERLINK]

4 Methodology

Various sources were used to identify and gather suitable reference literature for this research project, as follows:

- INTERLINK consortium members
 - These organisations operate in various countries and areas of expertise. Extensive literature was made available by the members.
- National Roads Authorities (NRAs), especially the CEDR members
 - Literature is being sought from NRAs by both email contact and during the ongoing research interviews.
 - Various standards and guidance documents are published on NRA websites, many of which have been collated for this research.
- Industry contractors, consultants and academics
 - Literature is being sought from parties by both email contact and during the ongoing research interviews.
- National standardisation bodies
 - These bodies publish various relevant national, European and international standards.
- Associated research projects
 - Relevant literature reviews have been carried out for other associated research projects, e.g. Virtual Construction for Roads (V-Von).
 - Associated research projects have produced and continue
- National and international development programmes
 - Various parallel development programmes are continuing during this project. Output from these programmes is collected by INTERLINK consortium members through strategic links.
- Academic journals
 - Various papers have been gathered from academic journals, with a focus on quality publications.

5 Literature Library List

The list of reference literature is provided in Appendix A. The list provides the title, publisher/author, publication year, literature type and a web link where available. Where possible, the web link is directly to the literature. However, in cases a document is protected by copyright the link is to a resource where the document can be purchased, such as a national standardisation body.

The types of literature included are:

- Research papers;
- Reports;
- Presentations;
- Websites;
- Journal articles;
- Standards;
- Specifications;
- Books;
- Guidance documents; and
- Leaflets.

Although the INTERLINK consortium has sought to identify all relevant literature, the field of BIM for road infrastructure assets is broad and interfaces with many associated fields of research and practice. Also, some relevant literature is already listed and reviewed in associated research reports. As such, some relevant literature may not be listed at this time. Further, rapid developments are ongoing in parallel research projects and in the industry application of BIM for the management of road infrastructure assets. As such, this list should not be considered exhaustive.
